

2019 SEMILLON

THE APPELLATION:
VQA Lincoln Lakeshore

THE HARVEST:
October 18, 2019

THE VARIETAL PROFILE:
100% Semillon

THE NOTES:

2019 was the first harvest of our new Semillon vines. Semillon is a grape native to the Bordeaux region of France and it's often seen in a blend with Sauvignon Blanc. Our single varietal semillon is a crisp white wine with bright acidity. The weight of the wine is more medium bodied. With flavours on the palate of green apple, mandarin, lemon and honeysuckles.

THE PAIRINGS:

This wine is a great on it's own on a hot summer day. It would pair well with summer salads, seafood or vegetarian fare. Try it with ceviche.

THE CELLARING:
Drink now to 2024.
